Territory Definitions

Personal Auto Program, Edition 2026 — California — Company Tracking # PMMU-2026-CA-PAP-001 (specimen)

California is divided into rating territories based on garaging ZIP code, consistent with the mandatory rating factor order established under Proposition 103 (driving safety record, annual mileage, years of driving experience, then other approved factors, including territory). Representative territories are shown below; a complete filing would include all California ZIP codes mapped to a territory code.

REPRESENTATIVE TERRITORY FACTORS (ILLUSTRATIVE)

Terr. #	Representative Area (garaging ZIP range)	Territory Factor

21	San Jose / South Bay (95110, 95126...)	1.19

NOTE

Territory factor is applied multiplicatively to the base rate shown on RR-01 and RR-02. A complete rate manual filing includes a full ZIP-code-to-territory mapping table, not reproduced in this specimen.

This is a fictional specimen rate manual page created for illustrative and training purposes only. It does not represent actual filed rates, rating factors, or an actual CDI-approved rate manual. "Pacific Meridian Mutual Insurance Company" is not a real insurer, and all factors and figures are invented.
