

RATE/RULE MANUAL PAGE RR-07 (SPECIMEN)**EV Battery/Charging Endorsement Rating Rule**

Personal Auto Program, Edition 2026 — California — Company Tracking # PMMU-2026-CA-PAP-001 (specimen)

This rule establishes rating for the new optional Electric Vehicle Battery & Charging Equipment Endorsement (Form CA-51), available for any covered vehicle identified as a battery-electric or plug-in hybrid vehicle.

PREMIUM CALCULATION

Rating Element	Factor / Amount
Base Endorsement Premium (per 6-mo. term)	\$12.00
Home Charging Equipment Value Factor – up to \$1,000	1.00
Home Charging Equipment Value Factor – \$1,001–\$2,500	1.35
Home Charging Equipment Value Factor – \$2,501–\$5,000	1.85

ELIGIBILITY

Available only where (a) the covered vehicle is coded as a battery-electric or plug-in hybrid vehicle in the company's vehicle database, and (b) Part D Comprehensive coverage is carried on that vehicle. Endorsement premium is calculated by multiplying the Base Endorsement Premium by the applicable Home Charging Equipment Value Factor based on the insured's declared equipment value, subject to the \$2,000 sublimit stated in Form CA-51.

TERRITORY AND DISCOUNT APPLICATION

This endorsement premium is not subject to territory factors (RR-03) or the Good Driver Discount (RR-04), as it is a flat specialty coverage charge.

This is a fictional specimen rate manual page created for illustrative and training purposes only. It does not represent actual filed rates, rating factors, or an actual CDI-approved rate manual. "Pacific Meridian Mutual Insurance Company" is not a real insurer, and all factors and figures are invented. Real, publicly filed rate and form filings for any licensed California insurer can be searched at filingaccess.serff.com/sfa/home/CA.
